Goodwood Inc.:
an alternative to passive
investment management

At Goodwood, our primary objective is to increase wealth by investing in undervalued fixed-income and equity securities. We seek to achieve our objective by consistently adhering to our unique and successful investment approach with a strong focus on equity special events and credit opportunities. Our strategy aims to generate idiosyncratic return profiles with low correlation to the broader market over the long term. Our investment approach focuses on preserving capital through rigorous investment analysis on a position and portfolio basis.

- Fixed-Income Management
(SMA and Funds)
- Equity Management
(SMA and Funds)
- Special Situations Investing
(Limited Partnerships and Funds)

We take great pride in our ability to fulfill the needs of our institutional, advisor, private and corporate client base.

Goodwood Inc.: an alternative to passive investment management

Our investment process covers multiple fixed income mandates that offer unique risk-adjusted investment return profiles focused on the preservation of capital through extensive and rigorous investment analysis on a position and portfolio basis

Goodwood Milford Fund – Fundserv Pooled Fund

- An alternative to traditional fixed-income strategies
- Established in 2006, the Fund combines multiple asset classes to produce an uncorrelated return profile throughout the economic and interest rate cycle
- Long/short credit mandate focused on utilizing income and equity analysis to identify corporate bond and to a lesser extent, equity opportunities, that represent the greatest reward for the respective capital structure risk
- Core strategy of investing in corporate bonds selected to provide higher levels of coupon income and potential capital gains from credit upgrades and credit-enhancing events
- Long/short credit-focused strategy has a flexible mandate, allowing the Fund to generate returns in a rising (or falling) interest rate environment
- The Fund offers weekly liquidity and is available for purchase in registered accounts (RRSP, RESP, RRIF, RDSP, TFSA, etc.)

Investment-Grade Bonds – Segregated Account (SMA)

- The Goodwood investment-grade bond mandate's objective is to preserve capital and provide a high rate of cash coupon income and capital gains due to credit improvements and credit rating upgrades
- The strategy is well diversified in position size, industry sectors and term-to-maturity. The portfolio invests in very liquid issues; for safety, the portfolio may invest in Canadas or Provincials and manages duration exposure rather than create a perpetual short-duration portfolio. The flexible, tactical approach allows the mandate to capitalize on inefficiencies in fixed-income markets
- The SMA mandate invests in approximately 25 investment-grade fixed-income securities, targeting 150-200 basis points returns over 5-year Canadas
- ETFs and mutual funds cannot provide the term structure of owning the actual bond (i.e. \$1000 Par received upon maturity), this mandate invests directly in investment-grade corporate bonds which flows income and maturity proceeds directly into the segregated account

ESG-Conscious Investment-Grade Bonds – Segregated Account

- The Goodwood environmental, social and (corporate) governance (“ESG”) conscious investment-grade bond mandate's objective is to preserve capital and generate income by investing in bonds with good relative ESG performance and attractive coupons
- Goodwood uses a disciplined, fundamental approach to constructing investment-grade bond portfolios that they believe may reward investors with capital gains due to credit improvements and credit rating upgrades
- The ESG-conscious strategy is diversified in position size, industry sectors and term-to-maturity
- The SMA mandate invests in approximately 30-40 fixed-income securities issued by companies that have achieved good scores in a third-party ESG valuation process; for safety, the mandate may also invest in green bonds issued by the Federal and Provincial governments and their agencies
- The return target is 50-200 basis points over 5-year Canadas
