

Goodwood Fund

Portfolio Manager:
Peter H. Puccetti, CFA

Contact:
Curt Cumming, President
ccumming@goodwoodfunds.com
Tel: (416) 203-2522

Fund Objective/Description:

The Goodwood Fund (the "Fund") investment objective is to maximize long-term total return through the purchase and short sale of primarily North American exchange-listed securities based on a bottom-up, company specific approach. The portfolio is relatively concentrated with 8-10 core positions typically representing over 50% of the portfolio and may also invest a portion of the portfolio in private placements or other less liquid investment opportunities. The value-oriented stock picking strategy allows the manager to focus on a limited number of ideas and build strong relationships with senior management of investee companies.

Key Reasons to Own this Fund:

- Long-term track record
- Bottom-up, company specific investment approach
- Diversification vs. major Canadian indices
- Stock picking with active approach to enhance value realization
- Management alignment

Historical Performance:

Compound Return (%)	1 Mo	YTD	1 Yr	3 Yr	5 Yr	10 Yr	Inception
Goodwood Fund	-4.03	-8.78	-10.40	-18.34	-0.81	-1.57	5.64

Returns are net of fees. Sources: Goodwood Inc., Goodwood Fund Class A and S&P Dow Jones Indices.

Current Asset Allocation:

Asset selection driven by bottom-up, company specific approach in seeking under-valued securities for the Fund. As such, the composition of the portfolio bears limited correlation to the S&P/TSX Composite Index. The portfolio typically holds its core positions for a long period of time (often over 3 years). As such and on purpose, the month-to-month change in asset composition is limited.

Number of Long/(Short) Positions	13/(4)	Net Exposure (%)	89.0	% Long Portfolio

Investor Eligibility:

Units of the Fund are offered to investors resident in the provinces of British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Québec, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland and Labrador pursuant to applicable exemptions from the prospectus requirements of the securities laws in the offering jurisdictions. Subscriptions will be accepted from an investor (other than individuals) who are purchasing Units with a minimum investment of \$150,000, or an investor who is an "accredited investor" as described in applicable securities legislation. The minimum initial investment for "accredited investors" is \$25,000.

Important Information:

This communication is for information purposes only and is not, and under no circumstances is it to be construed as, an invitation to make an investment in the Goodwood Fund (the "Fund") nor does it constitute a public offering to sell the Fund or any other products described herein. It should not be relied upon when evaluating the merits of a potential investment in any funds managed by Goodwood Inc. Applications for the Fund will only be considered on the terms of the offering memorandum. The information contained in this material is subject to change without notice and Goodwood Inc. and its affiliates will not be held liable for any inaccuracies or misprints. Performance returns above are calculated for the founding Class of Units for the Fund - Goodwood Fund Class A Units. The returns are net of all management fees, expenses and incentive performance fees. The performance fee for Goodwood Fund Class A units is 20% of positive returns over a 10% hurdle. Therefore in periods of positive performance the Class A is subject to lower performance fees. Currently only the Class B and Class F units of the Goodwood Fund are offered. **In order to achieve its objective of maximizing total return over the long term, the Goodwood Fund takes a relatively more concentrated approach to portfolio management than is typical. In addition, we remind our unitholders that the portfolio of the Goodwood Fund currently maintains a higher concentration to private/illiquid investments than its historical average.**

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return of the Fund are the historical annual compounded total return including changes in unit value and assume that all distributions made by the Fund were reinvested in additional units of the Fund. The rates of return do not include deduction of sales, transfer, redemption, income taxes payable, or other charges (which distributors may charge) that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Investment funds can involve significant risks and the value of an investment may go down as well as up. An investment in the Fund is not intended as a complete investment program and should only be made after consultation with independent investment and tax advisors. Only investors who do not require immediate liquidity of their investment should consider a potential purchase of shares. The risks involved in this type of investment maybe greater than those normally associated with other types of investments. Please refer to the offering memorandum before investing and for a further discussion of the risks of investing in the Fund. Performance data from certain market indices (S&P/TSX Composite TRI, S&P/TSX SmallCap TRI) are provided in this presentation for information purposes only. A comparison of the Fund's performance to such market indices is of limited use because the composition of the Fund's portfolio may contain other securities not found in the market index. As a result, no market indices are directly comparable to the results of the Fund.
