Goodwood Milford Fund – Fundserv Pooled Fund

- An alternative to traditional fixed-income strategies
- Established in 2006, the Fund combines multiple asset classes to produce an uncorrelated return profile throughout the economic and interest rate cycle
- Long/short credit mandate focused on utilizing income and equity analysis to identify corporate bonds and equity opportunities, that represent the greatest reward for the respective capital structure risk
- Core strategy of investing in corporate bonds selected to provide higher levels of coupon income and potential capital gains from credit upgrades and credit-enhancing events
- Long/short credit-focused strategy has a flexible mandate, allowing the Fund to generate returns in a rising or falling interest rate environment
- The Fund offers weekly liquidity and is available for purchase in registered accounts (RRSP, RESP, RRIF, RDSP, TFSA, etc.)

Since inception performance for iShares Core Canadian Universe Bond Index ETF & iShares Canadian Corporate Bond Index ETF calculated from June 30, 2021. The Investment Grade Bond Mandate is part of a third-party investment manager SMA account program for which Goodwood Inc. acts as sub-advisor. The UMA mandates are only available to clients of the third-party manager's advisors who are part of the third-party UMA account program. Investment-Grade Bond UMA Yield to Maturity and Effective Duration as of March 6, 2025. Portfolio holdings subject to change. See full disclosure page.

Investment-Grade Bonds – Segregated Account

- The Goodwood investment-grade bond mandate's objective is to preserve capital and provide a high rate of cash coupon income and capital gains due to credit improvements and credit rating upgrades
- The strategy is diversified in position size, industry sectors and term-to-maturity. The portfolio invests in very liquid issues; for safety, the portfolio may invest in Canadas or Provincials and manage duration exposure rather than create a perpetual short-duration portfolio. The flexible, tactical approach allows the mandate to capitalize on inefficiencies in fixed-income markets
- The SMA mandate invests in approximately 25 investment-grade fixed-income securities, targeting 150-200 basis points returns over 5-year Canadas
- ETFs and mutual funds cannot provide the term structure of owning the actual bond (i.e. \$1000 Par received upon maturity); this mandate invests directly in investment-grade corporate bonds, which flows income and maturity proceeds directly into the segregated account

ESG-Conscious Investment-Grade Bonds

- The Goodwood environmental, social and (corporate) governance (“ESG”) conscious investment-grade bond mandate's objective is to preserve capital and generate income by investing in bonds with good relative ESG performance and attractive coupons
- Goodwood uses a disciplined, fundamental approach to constructing investment-grade bond portfolios that they believe may reward investors with capital gains due to credit improvements and credit rating upgrades
- The ESG-conscious strategy is diversified in position size, industry sectors and term-to-maturity
- The SMA mandate invests in approximately 30-40 fixed-income securities issued by companies that have achieved good scores in a third-party ESG valuation process; for safety, the mandate may also invest in green bonds issued by the Federal and Provincial governments and their agencies
- The return target is 50-200 basis points over 5-year Canadas
